[Udemy](#)

Introduction to the web development (I and II)  
[Google](#)

Python professional course  
[Udemy](#)

## Experience

### Stemdo

At the end of the higher studies, I worked as internship at Stemdo.

After the internship, the company made me a contract working as a DevOps for Santander Bank client.  
Using technologies like Azure, AWS, Kubernetes, Github Actions...

### KDE Spain member

I am supporter of open source projects, and the Linux environment in general terms. You can find me as member and collaborator in KDE Spain.

### Personal projects

I love programming, so I invest part of my time learning, improving and creating projects. You can check some of my work at my website, my Github, and on some LinkedIn posts.
